PINO'S LAWN SEED

Park Lawn Mixture

A leading mixture for 62 years. We use only the highest quality, extra clean seed, as free from weeds as possible. A well-balanced mixture that will produce a rich, velvety, permanent carpet. Sow 5 lbs. to 1000 sq. ft. $\frac{1}{2}$ lb. 60c., 1 lb. \$1.15, 2 $\frac{1}{2}$ lbs. \$2.80, 5 lbs. \$5.50, 10 lbs. \$10.00, 15 lbs. \$14.55, 20 lbs. \$19.00, 25 lbs. \$23.00, 50 lbs. \$45.00.

Shady Nook Grass Mixture

As it is quite difficult to produce a satisfactory growth of grass in shady spots, we have made a special mixture for such places. In very shady places sometimes soil will be found to be sour and in this case an application of limestone will be quite helpful, using about 50 lbs. to each 1000 sq. ft. More applications of fertilizer will be needed, and during dry weather be quite liberal with water. $\frac{1}{2}$ lb. 65c., 1 lb. \$1.25, 2 $\frac{1}{2}$ lbs. \$2.95, 5 lbs. \$5.85, 10 lbs. \$11.60, 15 lbs. \$16.80, 20 lbs. \$22.00, 25 lbs. \$27.00, 50 lbs. \$52.50, 100 lbs. \$105.00.

University of R. I. Mixture #1

Recommended for home lawns, athletic fields and other turfgrass areas where a good tough turf is desired. Lb. \$1.25, 5 lbs. \$6.10, 10 lbs. \$12.00.

University of R. I. Mixture #2

This mixture will produce a good Fescue-Bluegrass lawn. Excellent for quick germination and for use during the summer months. Lb. \$1.00, 5 lbs. \$4.75, 10 lbs. \$9.00.

Only through the use of resistant stocks is it possible successfully to grow Asters more than one year in the same soil.
